

High-Performance Noise Barriers for the Water & Wastewater Industry

3-Sided LSE Absorptive Pump Enclosure

Retrofitted LSE Absorptive Pump Enclosure

Highly-Effective Noise Barriers for:

- ✓ Pumps
- ✓ Generators
- ✓ Compressors
- ✓ All Mechanical Equipment

LSE BENEFITS:

100% Sound Absorptive

Non-Corrosive

Easy to Install

Extremely Durable

Will Not Rust, Rot or Stain

Miami-Dade Wind Load Tested

Doors, Gates and Louvers Available

Available in Any Color

A PROVEN SOLUTION IN NOISE CONTROL TECHNOLOGY

Certified Laboratory Acoustic Tests and Results

Acoustic Systems Acoustical Research Facility

Sound Transmission Loss Test

Sound Transmission Loss

33

Test Method

ASTM E 90-90
ASTM C 423-90a
ASTM E 1332-90

Noise Absorption Test

Noise Reduction Coefficient

1.05

Test Method

ASTM C 423-90a
ASTM E 795-92
